An aerial photograph of a city block in Red Cedar River. The map shows a grid of streets including Maple St, Cedar St, River St, Main St, and Pine St. Various buildings and landmarks are labeled, such as Colfax Village Gift Office, County Slope-N-Gift Baskets, Colfax Health Mart Pharmacy, Colfax Animal Hospital, US Post Office, Just Like New Resale Shop, Colfax Bar & Grill, Genex, and Commercial Real Estate. The map also shows a railroad line and a bridge. Dimensions are indicated at the top: 160' and 222'. A scale bar is at the bottom left. The map is oriented with North at the top.

Subject: Curb and Gutter price

Lynn,

After talking to Rand, he said the only number you are missing is a curb and gutter, linear foot price.

Based on average bid prices, an approximate price per linear foot price is \$12.00/LF. So the cost for a 400' street would be 800' (2 sides) x \$12/Lf would be \$9,600.

I have been thinking about this and have some more thoughts-if you don't supply a sturdy subgrade, placement of gravel would have to be "back dumped". There is no way you could haul on this road, the heavy trucks will break it apart. Likewise when paving the loaded black top trucks are going to rut it up and you will end up with thin black top in some spots and thicker in others. In fact most blacktoppers will not pave on poor roadway gravel grades as they get blamed for the poor product. They will be lucky to get a decent riding surface out of it.

Another suggestion I had was to dig up the really poor spots a foot, put down some geogrid goes for about \$4 per sq yard, put in 7" of gravel, and then pulverize the rest, then lay the black top-maybe even using the grader and not a paver, and roll out. Trucks could drive along and dump in the middle of the street and then the grader would blade it out.

Sorry but streets this bad at this point are difficult to maintain, and just to do partial rebuild. Many city streets do not need to be built to the level they are, as the heaviest thing that hits them is a garbage truck or school bus. The reality is you have to build them to withstand the weight of the construction equipment, or they can't even get in them to build them. In the three streets you are talking about you need a full rebuild of the roadway section. My opinion.

Street Project Costs

Pulverizing and Paving Streets after the streets were televised.

| Priority | Information |
|-----------------|---|
| 1- Pine Street | Sewer is clay pipe which looks good. |
| 2- Maple Street | Sewer is exposed aggregate - no holes. A quarter of the street is in poor condition - suggest doing what is needed. |
| 3- Cedar Street | Sewer is half clay and half cement- very poor shape Cedar St. has a lower priority for pulverizing due to the probability that water/sewer will need to be done. |

| Cost Estimates | Oium Asphalt Paving Inc. | Ayres Associates | Street total #1 w/C&G | Street total #2 w/C&G |
|---|---|------------------------|-----------------------|-----------------------|
| Street Name | Option #1 | Estimate Curb & Gutter | | |
| Pine Street (620'x31.5'=19530 sq. ft.) | \$21,483.00 | \$14,880.00 | \$36,363.00 | \$28,629.12 |
| Maple Street (200'x34.5'=6,900 sq. ft.) Partial - part that needs to be done | \$7,590.00 | | | |
| Cedar Street (215.5'x34.5'=7,434.75'sq. ft.) (96.5'x23'=2,219.5' sq. ft.) | \$8,178.23 \$2,441.45 \$10,619.68 | | | |
| Totals | \$39,692.68 | \$25,403.31 | \$18,107.68 | \$14,284.59 |
| | | | \$54,470.68 | \$42,913.71 |

As required by the Wisconsin construction lien law, claimant hereby notifies owner that persons or companies performing, furnishing, or procuring labor, services, materials, plans, or specifications for the construction on owner's land, may have lien rights on owner's land and buildings if not paid. Those entitled to lien rights, in addition to the undersigned claimant, are those who contract directly with the owner or those who give the owner notice within sixty (60) days after they first perform, furnish, or procure labor, services, materials, plans or specifications for the construction. Accordingly, owner will probably receive notices from those who perform, furnish, or procure labor, services, materials, plans, or specifications for the construction, and should give a copy of each notice received to the mortgage lender, if any. Claimant agrees to cooperate with the owner and the owner's lender, if any, to see that all potential lien claimants are duly paid.

Any alteration or deviation from above specifications, involving extra costs, will be executed only upon written orders, and will become an extra charge over and above the Estimate. All agreements contingent upon strikes, accidents or delays beyond our control. Owner to carry fire, tornado, and other necessary insurance upon above work. Workmens Compensation and Public Liability Insurance, on above work, to be taken out by H&H Plumbing, LLC.
