RE: Village of Colfax

A meeting to **organize a Joint Review Board (“JRB”) for the Village’s proposed creation of Tax Incremental District No. 5 (“District”)** will be held at 5:00 p.m. on August 30, 2021. Please see the attached legal notice for meeting attendance information.

At this meeting, the JRB will be asked to appoint a chair and public member, and to set an additional meeting date or dates. Village staff will also review the draft Project Plan.

A quorum must be achieved for the Village to proceed, we would ask that you ensure the availability of your appointee to attend.

We’ve attached the following additional information:

- The meeting agenda.
- A copy of the legal notice published for this meeting.

A copy of the draft Project Plan document will be e-mailed to you in advance of the meeting.

At a subsequent meeting, the JRB will be asked to approve the resolution to be adopted by the Village creating the District. In considering approval, the JRB will review the public record, planning documents and the resolutions adopted by the Village's Plan Commission and Village Board. Its decision, by majority vote, must be made within 45 days of receipt of the adopted Village Board resolution and is to be based on the following criteria specified in Wis. Stat. § 66.1105(4m)(c)1.:

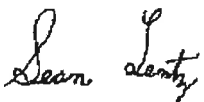

1. Whether the development expected in the tax incremental district would occur without the use of tax incremental financing;
2. Whether the economic benefits of the tax incremental district, as measured by increased employment, business and personal income and property value, are insufficient to compensate for the cost of the improvements; and
3. Whether the benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions.

If the JRB does not approve the creation of the District it must issue a written explanation describing why it fails to meet one or more of these criteria.

If you have any questions regarding the meeting or attached materials, please contact me or Paula Czaplewski at 800-552-1171.

Sincerely,

EHLERS

NOTICE OF PUBLIC HEARING
AND JOINT REVIEW BOARD MEETING
IN THE VILLAGE OF COLFAX, WISCONSIN

Notice is Hereby Given that the Village of Colfax will hold an organizational Joint Review Board meeting on August 30, 2021 at 5:00 p.m. The purpose of this meeting is to organize a Joint Review Board for purposes of considering the proposed creation of, and proposed project plan for, Tax Incremental District No. 5 (the "District").

The meeting will be held at the Colfax Rescue Squad, 614C Railroad Ave., Colfax, WI 54730

If you prefer to attend remotely, below is that optional information for attending:

Join Zoom Meeting

<https://us06web.zoom.us/j/81960719145?pwd=VXpnUFYwYVNGRIB1SVZVTUdINjBVQT09>

Meeting ID: 819 6071 9145

Passcode: 6DEj1A

Notice is Hereby Given that the Plan Commission of the Village of Colfax will hold a public hearing on August 30, 2021 at 6:00 p.m. for the purpose of providing the community a reasonable opportunity to comment upon the proposed creation of the Project Plan for the District.

The meeting will be held at the Colfax Rescue Squad, 614C Railroad Ave., Colfax, WI 54730

If you prefer to attend remotely, below is that optional information for attending:

Join Zoom Meeting

Meeting ID: 859 4282 2145

Passcode: vSi9kh

The proposed boundaries of the District would be within an area generally detailed on the map inset.

The District is expected to be a mixed-use district based on the identification and classification of the property proposed to be included within the District.

Proposed projects costs include various public improvements and cash grants to owners or lessee or developers of land located within the district (development incentives) and professional and organizational services, administrative costs, and finance costs. The proposed costs include projects within the proposed boundary and within a ½ mile radius of the proposed boundary of the District.

All interested parties will be given a reasonable opportunity to express their views on the proposed creation of the District, the proposed boundaries of the District, and the proposed Project Plan thereof. A copy of the

Project Plan, including a description of the proposed boundaries, will be available for viewing in the offices of the Village Clerk at the Colfax Village Hall, located at 613 Main Street and also on the village website, www.villageofcolfaxwi.org/News/Events, during normal business hours and will be provided upon request.

Such hearing shall be public and citizens and interested parties shall then be heard. This hearing may be adjourned from time to time.

By Order of the Village of Colfax, Wisconsin

SECTION 1: Executive Summary

Description of District

Tax Incremental District (“TID”) No. 5 (“District”) is a proposed mixed-use District comprising approximately 371 acres located in southern Colfax. The District will be created to pay the costs of infrastructure improvements and potential development incentives. In addition to the incremental property value that will be created, the Village expects the Project will result in new residential, commercial, and industrial development opportunities.

Authority

The Village is creating the District under the provisions of Wis. Stat. § 66.1105.

Estimated Total Project Cost Expenditures

The Village anticipates making total expenditures of approximately \$3,000,000 (“Project Costs”) to undertake the projects listed in this Project Plan (“Plan”). Project Costs include Dunn St. Improvements, Public Infrastructure for Residential, Commercial, and Industrial Development, and Development Incentives.

Incremental Valuation

The Village projects that new land and improvements value of approximately \$12,100,000 will result from the Project. Creation of this additional value will be made possible by the Project Costs made within the District. A table detailing assumptions as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

Expected Termination of District

Based on the Economic Feasibility Study located within Section 9 of this Plan, the Village anticipates that the District will generate sufficient tax increment to pay all Project Costs within its allowable 20 years.

Summary of Findings

As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

1. That “but for” the creation of this District, the development projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in the manner, at the values, or within the timeframe desired by the Village. In reaching this determination, the Village has considered:

The substantial investment needed to provide the public infrastructure necessary to allow for development within the District. Absent the use of tax

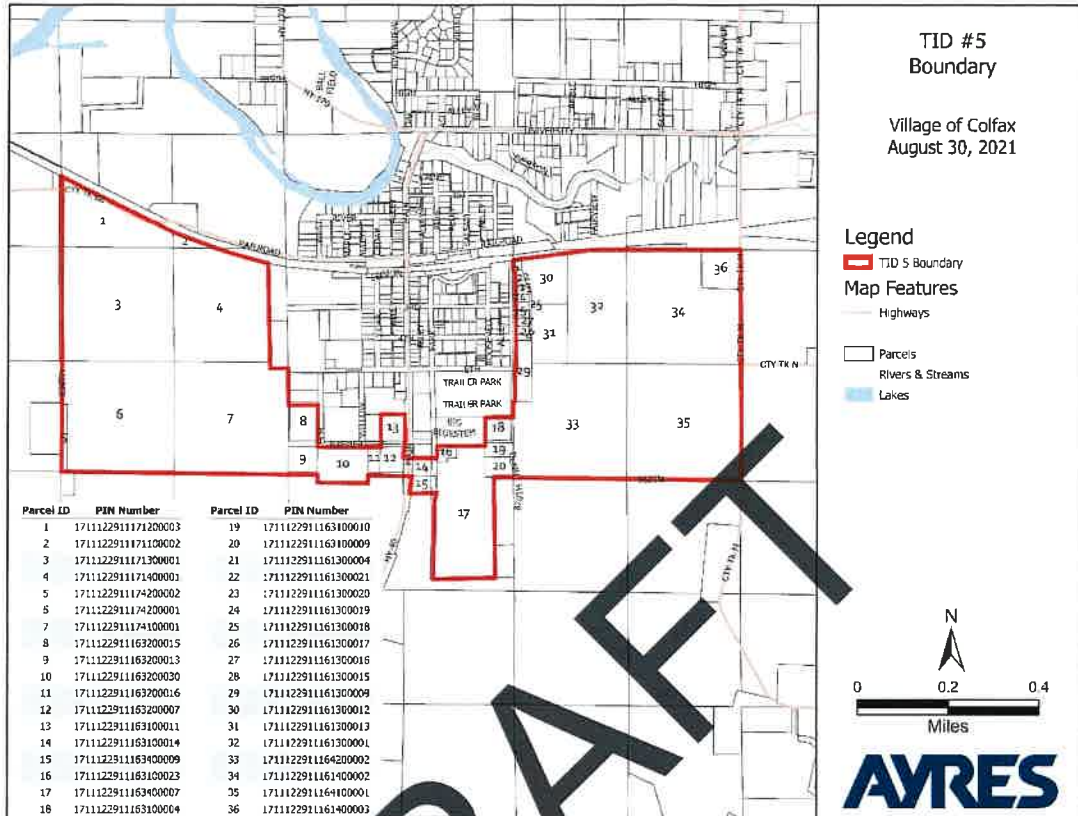

incremental financing, the Village is unable to fully fund this program of infrastructure improvements.

2. The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements.
3. The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions. As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for creation of the District. Accordingly, the Village finds that the benefits expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.
4. Not less than 50% by area of the real property within the District is suitable for mixed use development as defined by Wis. Stat. § 66.1105(2)(cm).
5. Based on the foregoing finding, the District is designated as a mixed-use district.
6. The Project Costs relate directly to promoting mixed use development in the District, consistent with the purpose for which the District is created.
7. Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
8. The equalized value of taxable property in the District, plus the incremental value of all existing tax incremental districts within the Village does not exceed 12% of the total equalized value of taxable property within the Village.
9. The Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
10. The Plan for the District is feasible and is in conformity with the Master Plan of the Village.

SECTION 2:
Preliminary Map of Proposed District Boundary

Map Found on Following Page.

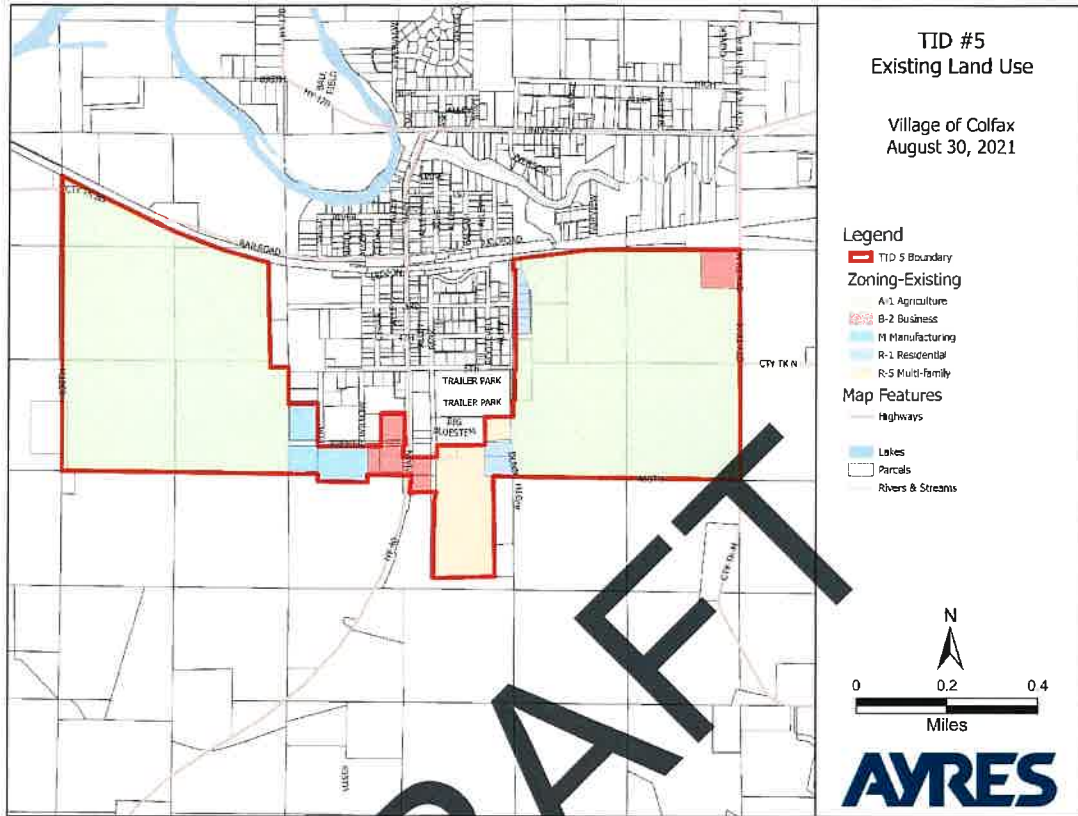

DRAFT

SECTION 3:
Map Showing Existing Uses and Conditions

Map Found on Following Page.

DRAFT

SECTION 5: Equalized Value Test

The following calculations demonstrate that the Village expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property in the proposed District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the Village. The value of those parcels located within Tax Increment District No. 5 that will be overlapped are not included in the base value of the District as that value is reflected within the total of existing incremental value.

The equalized value of the increment of existing tax incremental districts within the Village, plus the base value of the proposed District, totals \$6,491,400. This value is less than the maximum of \$7,582,728 in equalized value that is permitted for the Village.

SECTION 6: Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating Village ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs.

The following is a list of public works and other tax incremental financing eligible Project Costs that the Village expects to make, or may need to make, in conjunction with the implementation of the District's Plan. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

Property, Right-of-Way and Easement Acquisition

Property Acquisition for Development

To promote and facilitate development the Village may acquire property within the District. The cost of property acquired, and any costs associated with the transaction, are eligible Project Costs. Following acquisition, other Project Costs within the categories detailed in this Section may be incurred to make the property suitable for development. Any revenue received by the Village from the sale of property acquired pursuant to the execution of this Plan will be used to reduce the total project costs of the District. If total Project Costs incurred by the Village to acquire property and make it suitable for development exceed the revenues or other consideration received from the

sale or lease of that property, the net amount shall be considered “real property assembly costs” as defined in Wis. Stat. § 66.1105(2)(f)1.c., and subject to recovery as an eligible Project Cost.

Property Acquisition for Conservancy

To promote the objectives of this Plan, the Village may acquire property within the District that it will designate for conservancy. These conservancy objectives include: preserving historic resources or sensitive natural features; protection of scenic and historic views; maintaining habitat for wildlife; maintaining adequate open space; reduction of erosion and sedimentation by preserving existing vegetation; and providing adequate areas for management of stormwater. The cost of property acquired for conservancy, and any costs associated with the transaction, are eligible Project Costs.

Acquisition of Rights-of-Way

The Village may need to acquire property to allow for installation of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire rights-of-way are eligible Project Costs.

Acquisition of Easements

The Village may need to acquire temporary or permanent easements to allow for installation and maintenance of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire easement rights are eligible Project Costs.

Relocation Costs

If relocation expenses are incurred in conjunction with the acquisition of property, those expenses are eligible Project Costs. These costs may include, but are not limited to: preparation of a relocation plan; allocations of staff time; legal fees; publication of notices; obtaining appraisals; and payment of relocation benefits as required by Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

Site Preparation Activities

Environmental Audits and Remediation

If it becomes necessary to evaluate any land or improvement within the District, any cost incurred by the Village related to environmental audits, testing, and remediation are eligible Project Costs.

Demolition

To make sites suitable for development, the Village may incur costs related to demolition and removal of structures or other land improvements, to include abandonment of wells or other existing utility services.

Site Grading

Land within the District may require grading to make it suitable for development, to provide access, and to control stormwater runoff. The Village may need to remove and dispose of excess material, or bring in fill material to provide for proper site elevations. Expenses incurred by the Village for site grading are eligible Project Costs.

Utilities

Sanitary Sewer System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand sanitary sewer infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: collection mains; manholes and cleanouts; service laterals; force mains; interceptor sewers; pumping stations; lift stations; wastewater treatment facilities; and all related appurtenances. To the extent sanitary sewer projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand sanitary sewer infrastructure located outside of the District. That portion of the costs of sanitary sewer system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs. The improvements to the wastewater treatment facilities, although not within the ½ mile radius, is an eligible project cost under Wis. Stat. § 66.1105(2)(f)1 k.

Water System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand water system infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: distribution mains; manholes and valves; hydrants; service laterals; pumping stations; wells; water treatment facilities; storage tanks and reservoirs; and all related appurtenances. To the extent water system projects undertaken within the District provide direct benefit to land outside of the District, the Village will

make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand water system infrastructure located outside of the District. That portion of the costs of water system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Stormwater Management System Improvements

Development within the District will cause stormwater runoff. To manage this stormwater runoff, the Village may need to construct, alter, rebuild or expand stormwater management infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: stormwater collection mains; inlets, manholes and valves; service laterals; ditches; culvert pipes; box culverts; bridges; stabilization of stream and river banks; and infiltration, filtration and detention Best Management Practices (BMP's). To the extent stormwater management system projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand stormwater management infrastructure located outside of the District. That portion of the costs of stormwater management system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Electric Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade electric services. Relocation may require abandonment and removal of existing poles or towers, installation of new poles or towers, or burying of overhead electric lines. Costs incurred by the Village to undertake this work are eligible Project Costs.

Gas Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade gas mains and services. Costs incurred by the Village to undertake this work are eligible Project Costs.

Communications Infrastructure

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade infrastructure required for voice and data communications, including, but not limited to: telephone lines, cable lines and fiber optic cable. Costs incurred by the Village to undertake this work are eligible Project Costs.

Streets and Streetscape

Street Improvements

To allow development to occur, the Village may need to construct or reconstruct streets, highways, alleys, access drives and parking areas. Eligible Project Costs include, but are not limited to: excavation; removal or placement of fill; construction of road base; asphalt or concrete paving or repaving; installation of curb and gutter; installation of sidewalks and bicycle lanes; installation of culverts, box culverts and bridges; rail crossings and signals; utility relocation, to include burying overhead utility lines; street lighting; installation of traffic control signage and traffic signals; pavement marking; right-of-way restoration; installation of retaining walls; and installation of fences, berms, and landscaping.

Streetscaping and Landscaping

To attract development consistent with the objectives of this Plan, the Village may install amenities to enhance development sites, rights-of-way and other public spaces. These amenities include, but are not limited to: landscaping; lighting of streets, sidewalks, parking areas and public areas; installation of planters, benches, clocks, tree rings, trash receptacles and similar items; and installation of brick or other decorative walks, terraces and street crossings. These and any other similar amenities installed by the Village are eligible Project Costs.

Community Development

Cash Grants (Development Incentives)

The Village may enter into agreements with property owners, lessees, or developers of land located within the District for sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover Project Costs. No cash grants will be provided until the Village executes a developer agreement with the recipient of the cash grant. Any payments of cash grants made by the Village are eligible Project Costs.

Contribution to Community Development Authority (CDA)

As provided for in Wis. Stat. § 66.1105(2)(f)1.h and Wis. Stat. § 66.1333(13), the Village may provide funds to its CDA to be used for administration, planning operations, and capital costs, including but not limited to real property acquisition, related to the purposes for which it was established in furtherance of any redevelopment or urban renewal project. Funds provided to the CDA for this purpose are eligible Project Costs.

Revolving Loan/Grant Program (Development Incentives)

To encourage private development consistent with the objectives of this Plan, the Village, through its CDA may provide loans or grants to eligible property owners in the District. Eligible improvements will be those that are likely to improve the value of the property, enhance the visual appearance of the property and surrounding area, correct safety deficiencies, or as otherwise specified by the CDA in the program manual. Any funds returned to the CDA from the repayment of loans made are not considered revenues to the District, and will not be used to offset District Project Costs. Instead, these funds may be placed into a revolving fund and will continue to be used for the program purposes stated above. Any funds provided to the CDA for purposes of implementing this program are considered eligible Project Costs.

Miscellaneous

Projects Outside the Tax Increment District

Pursuant to Wis. Stat. § 66.1105(2)(f)1.n, the Village may undertake projects within territory located within one-half mile of the boundary of the District provided that: 1) the project area is located within the Village's corporate boundaries; and 2) the projects are approved by the Joint Review Board. The cost of projects completed outside the District pursuant to this section are eligible project costs, and may include any project cost that would otherwise be eligible if undertaken within the District.

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs. Professional services include but are not limited to: architectural; environmental; planning; engineering; legal; audit; financial; and the costs of informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The Village may charge to the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by Village employees relating to the implementation of the Plan.

Financing Costs

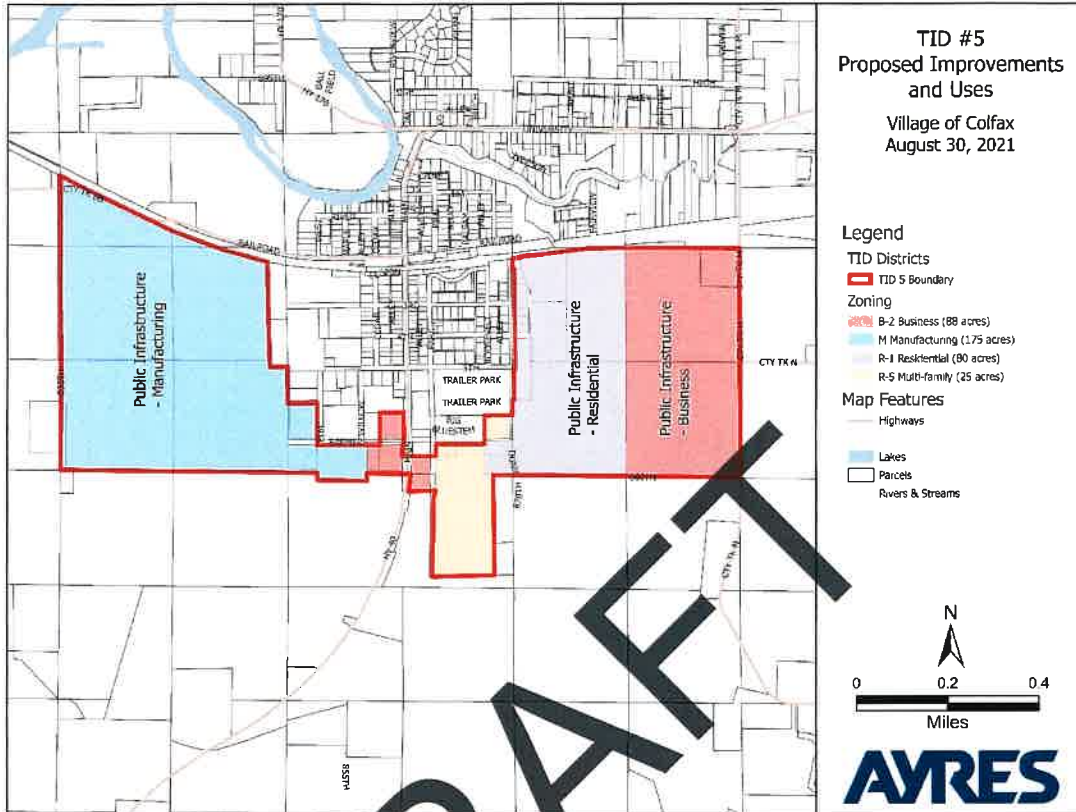

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

DRAFT

SECTION 8: Detailed List of Estimated Project Costs

The following list identifies the Project Costs that the Village currently expects to incur in implementing the District's Plan. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

Village of Colfax, Wisconsin						
Tax Increment District #5						
Estimated Project List						
Project ID	Project Name/Type	Phase I 2022	Phase II 2025	Phase III 2027	Phase IV Throughout	Total (Note 1)
1	Dunn St. Improvements	250,000				250,000
2	Public Infrastructure - Residential		1,000,000			1,000,000
3	Public Infrastructure - Commercial		500,000			500,000
3	Public Infrastructure - Industrial			1,000,000		1,000,000
4	Development Incentives				250,000	250,000
Total Projects		250,000	1,500,000	1,000,000	250,000	3,000,000

Notes:

Note 1 Project costs are estimates and are subject to modification

Note 2 Public infrastructure may include, but is not limited to, water, sewer, and wastewater improvements.

SECTION 9: Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes a forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how Project Costs would be financed, and a projected cash flow demonstrating that the District is economically feasible.

Key Assumptions

The Project Costs the Village plans to make are expected to create \$12,100,000 in incremental value by 2029. Estimated valuations and timing for construction of the Project are included in Table 1. Assuming the Village's current equalized TID Interim tax rate of \$24.32 per thousand of equalized value, and no economic appreciation or depreciation, the Project would generate \$4,313,249 in incremental tax revenue over the 20-year term of the District as shown in Table 2.

Notes:
 Actual results will vary depending on development, inflation, and local tax rates.
 NPV calculations represent estimated amount of funds that could be borrowed (excluding project cost, capitalized interest and issuance costs)

Financing and Implementation

Improvements to the first phase of development along Dunn Street will be funded with an issuance of a State Trust Fund Loan in 2022. Future phases of development will be financed with Tax Increment Revenue bonds in 2025 and 2027. The project plan also provides a funding source for potential development incentives that will be funded on a pay-as-you-go basis beginning in 2023. Table 3. provides a summary of the District’s financing plan.

Table 3 - Financing Plan

Miscellaneous		1,000	1,000	
Total Financing Required	255,000	1,560,280	1,052,160	
Rounding		4,720	2,840	
Net Issue Size	512,000	1,565,000	1,055,000	3,132,000

Based on the Project Cost expenditures as included within the cash flow exhibit (Table 4), the District is projected to accumulate sufficient funds to pay off all Project cost liabilities and obligations by 2040. The projected closure is based on the various assumptions noted in this Plan and will vary dependent on actual Project Costs incurred and the actual amount of tax increments collected.

Notes: Interim financing may be required until tax revenue is sufficient to issue Tax Increment Revenue Bond.

SECTION 10: Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. None of the property within the proposed District boundary was annexed during the past three years.

DRAFT

SECTION 11:
**Estimate of Property to Be Devoted to Retail
Business**

Pursuant to Wis. Stat. § 66.1105(5)(b), the Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

DRAFT

SECTION 12: Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and Village Ordinances

Zoning Ordinances

The proposed Plan is in general conformance with the Village's current zoning ordinances. Individual properties may require rezoning at the time of development.

Master (Comprehensive) Plan and Map

The proposed Plan is in general conformance with the Village's Comprehensive Plan identifying the area as appropriate for residential and commercial development.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the Village's permitting and inspection procedures. The proposed Plan conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

DRAFT

SECTION 13:
**Statement of the Proposed Method for the
Relocation of any Persons to be Displaced**

Should implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

DRAFT

SECTION 14:
How Creation of the Tax Incremental District
Promotes the Orderly Development of the Village

Creation of the District and the implementation of the projects in its Plan will promote the orderly development of the Village by creating opportunities for mixed use development and providing necessary public infrastructure improvements. Through use of tax increment financing, the Village can attract new investment that results in increased tax base. Development will occur in an orderly fashion in accordance with approved plans so that the Projects will be compatible with adjacent land uses. Development of new uses in the District will add to the tax base and will generate positive secondary impacts in the community such as increased employment opportunities and residential and commercial development.

DRAFT

SECTION 15:

List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

No improvements to be made within the District will benefit property outside the District. Furthermore, there will be no improvements made outside the District that will only partially benefit the District.

RE: Project Plan for Tax Increment District No. 5

Dear Village President :

Wisconsin Statute 66.1105(4)(f) requires that a project plan for a tax incremental financing district include an opinion provided by the Village Attorney advising as to whether the plan is complete and complies with Wisconsin Statute 66.1105.

As Village Attorney for the Village of Colfax, I have been asked to review the above-referenced project plan for compliance with the applicable statutory requirements. Based upon my review, in my opinion, the Project Plan for the Village of Colfax Tax Increment District No. 5 is complete and complies with the provisions of Wisconsin Statute 66.1105.

Sincerely,

Village Attorney

SECTION 17:
**Calculation of the Share of Projected Tax
Increments Estimated to be Paid by the Owners of
Property in the Overlying Taxing Jurisdictions**

The following projection is provided to meet the requirements of Wis. Stat. § 66.1105(4)(i)4.

DRAFT

Village of Colfax, Wisconsin

Tax Increment District #5

Estimated portion of taxes that owners of taxable property in each taxing jurisdiction overlaying district would pay by jurisdiction.
