Addy, If you're still interested, I will put it on the next Board Meeting agenda (06/08) at 7:00pm. Can you attend that meeting?

Subject: Advanced EMT class

Good morning Julie,

Addy (she's cc'd on this) has came to me expressing her interest in doing the advanced EMT class. The next class in Eau Claire is offered August 24th - December 11th. She has availability to make this class work and it's the soonest an advanced class is available. Will the village pay for this? If so how do we go about getting her signed up for this?

Thanks so much!

One (1) set of plans shall be submitted and shall remain on file in the office of the Building Inspector. All plans and specifications shall be signed by the designer, where required. Plans for all new one (1)- and two (2)-family dwellings shall comply with the applicable provisions of the Wisconsin Uniform Dwelling Code, Wis. Admin. Code Chapters SPS 320 through 325, as amended from time to time.

Waiver of Plans; Minor Repairs.

- (1) Waiver. If the Building Inspector finds that the character of the work is sufficiently described in the application, he may waive the filing of plans for alterations, repairs or moving, provided the cost of such work does not exceed Two Thousand Dollars (\$2,000.00).
- (2) Minor Repairs. The Building Inspector may authorize minor repairs or maintenance work on any structure or to heating, ventilating or air conditioning systems installed therein valued at less than One Thousand Five Hundred Dollars (\$1,500.00), as determined by the Building Inspector, which do not change the occupancy area, exterior aesthetic appearance, structural strength, fire protection, exits, light or ventilation of the building or structure without issuance of a building permit.

Approval of Plans.

- (1) If the Building Inspector determines that the building will comply in every respect with all Ordinances and orders of the Village and all applicable laws and orders of the State of Wisconsin, he shall issue a building permit which shall state the use to which said building is to be put, which shall be kept and displayed at the site of the proposed building. After being approved, the plans and specifications shall not be altered in any respect which involves any of the above-mentioned Ordinances, laws or orders, or which involves the safety of the building or the occupants, except with the written consent of the Building Inspector.
- (2) In case adequate plans are presented for part of the building only, the Building Inspector, at his discretion, may issue a permit for that part of the building before receiving the plans and specifications for the entire building.

Notification. The permit holder shall notify the Building Inspector when ready for the following inspections:

- (1) Inspection of footings and foundation walls for conformance with plans and specifications. Underground plumbing may be inspected at this time, if ready.
- (2) Inspection of rough-ins, including framing, energy, electrical, mechanical and plumbing, as they are ready and prior to being concealed.
- (3) Inspection prior to pouring concrete floors for subgrade, drain tile, forms and underfloor building components.
- (4) Inspection upon completion of project and prior to occupancy or use. **Inspection**

Warrants. If an Inspector is denied access to inspect a property, he may request the Village Attorney to seek an inspection warrant pursuant to Sec. 66.122, Wis. Stats.

Permit Lapses. A building permit shall lapse and be void unless building operations are commenced within six (6) months. UDC permits expire (24) months from issuance if the dwelling exterior is not complete or commercial electrical permits expire 12 months from issuance if electrical wiring has not commenced.

Revocation of Permits.

- (1) The Building Inspector or the Village Board may revoke any building, plumbing or electrical permit, certificate of occupancy, or approval issued under the regulations of this Chapter and may stop construction or use of approved new materials, equipment, methods of construction, devices or appliances for any of the following reasons:

- a. Whenever the Building Inspector shall find at any time that applicable ordinances, laws, orders, plans and specifications are not being complied with and that the holder of the permit refused to conform after written warning or construction has been issued to him.
 - b. Whenever the continuance of any construction becomes dangerous to life or property.
 - c. Whenever there is any violation of any condition or provisions of the application for permit or of the permit.
 - d. Whenever, in the opinion of the Building Inspector, there is inadequate supervision provided on the job site.
 - e. Whenever any false statement or misrepresentation has been made in the application for permit, plans, drawings, data specifications or certified lot or plot plan on which the issuance of the permit or approval was based.
 - f. Whenever there is a violation of any of the conditions of an approval or occupancy given by the Building Inspector for the use of all new materials, equipment, methods or construction devices or appliances.
- (2) The notice revoking a building, plumbing or electrical certificate of occupancy or approval shall be in writing and may be served upon the applicant of the permit, owner of the premises and his agent, if any, and on the person having charge of construction.
 - (3) A revocation placard shall also be posted upon the building, structure, equipment or premises in question by the Building Inspector.
 - (4) After the notice is served upon the persons as aforesaid and posted, it shall be unlawful for any person to proceed thereafter with any construction operation whatsoever on the premises, and the permit which has been so revoked shall be null and void, and before any construction or operation is again resumed, a new permit, as required by this Chapter, shall be procured and fees paid therefor, and thereafter the resumption of any construction or operation shall be in compliance with the regulation of this Chapter. However, such work as the Building Inspector may order as a condition precedent to the reissuance of the building permit may be performed, or such work as he may require for the preservation of life and safety.

Report of Violations. Village officers shall report at once to the Building Inspector any building which is being carried on without a permit as required by this Chapter.

Display of Permit. Building permits shall be displayed in a conspicuous place on the premises where the authorized building or work is in progress at all times during construction or work thereon.
